

# RN EGG

Alternative to  
CIJ Printer

# RN EGG

The **RN EGG** uses a Piezo high resolution technology and is designed and manufactured to provide maximum reliability. Designed with Piezo technology and does not require costly parts (i.e. pump, valves, diaphragm, air supply, etc.) The **RN EGG** is your best alternative to CIJ or Valve-Jet printers.

Introducing the new **RN EGG** fast dry inkjet printer that offers flexible and economical options.

## Benefits

The **RN EGG** is a compact machine and one of the most economical owing to the low cost print & minimal maintenance.

Easy connectivity to any external devices such as PLC, weigh machine, scanners, factory network system, database, etc. High resolution printing enhances image quality on your packaging and products. Ideal solution for printing in limited space.

Add any true type fonts and logos. Multi line printing. Clean, sealed exchangeable solvent-based ink cartridge (approved by Canadian Food Inspection Agency). Machines are light and portable to switch packaging lines. Lower operating costs with minimal machine maintenance and operator involvement.

## Specifications

- Windows XP or CE-based controller
- Up to 8 Print heads
- Font size 8 to 128 pixels
- Print height 18mm each print head
- Prints all true type fonts
- 120 m/m print speed "360 dpi"  
(60m/m for 2mm font & barcode)
- Prints text, logos, numbers, shift code, production & expiry dates and Barcode
- Incremental and decremental numbering
- Multi language
- Password protection
- Print cost calculator system
- RS 232 connectivity
- Orientation horizontal & vertical printing
- USB connectivity

## External power supply

External power supply  
Single phase 100-240v 50/60Hz 1.0A  
Output 5v & 12v 40w max  
Operating temperature of 5 – 45°C  
Secure electrical failure mode  
Power supply approved by GS, CE, UL

## Data Input

Photocell  
Encoder  
Ethernet  
Barcode scanner  
Check Weigher  
PLC

## Ink

110ml sealed ink cartridge  
(up to 15,000,000 characters "2mm font")  
Food grade Inks.  
-Red FDA Approval  
-Blue
